## WORK EXPERIENCE

### Profiles Asia Pacific Inc.

Aug. 2024 – Sep. 2024

*Information Security Engineer Intern*

*Pasig, NCR*

- Applied hands-on experience in enhancing security and compliance through the effective use of Microsoft 365 and its suite of tools. Utilizing and configuring the organization's EDR, SIEM, DLP, MDM, and IAM Solutions.
  - **Key Results:** Assisted in **assuring ISO 27001/27002 compliance**, improving compliance scores by **85%**.
  - Increased **overall security score by 70%** using Microsoft Compliance Manager in Purview.
  - Spearheaded Security Awareness Campaigns through Phishing Simulation and Employee Awareness Training
  - Implemented and monitored security measures in Microsoft Defender, Purview, and Intune, resulting in faster incident response times.
- Conducted investigations in real-world incidents: participated in the entire PICERL incident response process, focusing on **log analysis, digital forensics, and malware analysis** leading to **4 successful resolutions of security breaches**.
- Made significant contributions to growing the Threat Intelligence knowledge base for the organization
- Participated in GRC (Governance, Risk, and Compliance) activities, strengthening risk management processes.

### SHIELD Foundry

Sep. 2023 – Dec. 2023

*Junior DevOps Engineer Intern*

*Taguig, NCR*

- Spearheaded containerization and deployment processes, reducing deployment times by 20%.
- Proposed and implemented infrastructure security policies, leading to a reduction in system vulnerabilities.
- Developed and deployed monitoring technology for client applications, improving system uptime.

### The Flour Apprentice

Feb. 2021– May 2023

*Website Developer*

*Canada, Remote*

- Solely responsible for website creation, design, support, and maintenance, delivering 2 client websites with 100% client satisfaction.
- Managed hosting services and reduced operational costs by 45% through optimization and migration to Hostinger.
